Handbook of Japanese Syntax - De Gruyter

The Oxford Handbook of Japanese Linguistics captures the excitement that comes from answering the question, “What can Japanese say about Universal Grammar?”. Each of the eighteen articles takes up a topic in syntax, morphology, acquisition, processing, phonology, or information structure, and, first of all, lays out the core data, followed by critical discussion of the various approaches found in the literature.

Oxford Handbook of Japanese Linguistics - Oxford Handbooks

The Handbooks of Japanese Language and Linguistics surpass all currently available reference works on Japanese in both their scope and depth, and provide a comprehensive survey of nearly the entire field of Japanese linguistics for the general academic community as well as for specialists in the fields of Japanese and linguistics. Each volume includes a balanced selection of contributions by established linguists from Japan as well as outside Japan which summarize mile-stone achievements in ...

Handbooks of Japanese Language and Linguistics [HJLL]

This volume presents a comprehensive survey of Japanese syntax from these three research strands, namely studies based on the traditional research methods developed in Japan, those from broader functional perspectives, and those couched in the generative linguistics framework. The twenty-four studies contained in this volume are characterized by a detailed analysis of a grammatical phenomenon with broader implications to general linguistics, making the volume attractive to both specialists of ...
