Customers start in the bar area for drinks and then move into the dining room where chefs prepare the food right at the table.

Operations Management  
Simulation: Benihana  
Demo - Forio

In Benihana simulation, the timing was controlled by the person cooking the food and serving it.

# Read Book Operations

He could serve swiftly, perform less or even give non verbal cues to the customers sothat they finish fast. This strategy could be used in peak time to increase the through put. In the lean time the cook would take more time to serve and perform more.
