Researchers previously examined the typical traits martial arts focused on (e.g. reducing stress/anxiety, self-esteem, humility, independence, etc.). That changed, and instead, they began focusing on purely the hostility and anger found in practitioners over anything else.

The Social & Psychological Effects of Martial Arts - Hard ...

Martial arts impact is weird. It's not for everyone. Either you like it, or you don't. If you're drawn to it, it will undoubtedly leave a big impression on your life. From the outside looking in, you're seen as many things. Brave, violent, geeky, cool, angry and so many others. The only thing that matters is how you see yourself and the place that martial arts has taken in your life.

The Martial Arts Impact On My Life - Martial Art Skills

Martial arts (depending on how it is taught) teaches you that there's always someone better and stronger than you, and the only person you need to worry about is yourself. If you can be truly self aware, then you can better read other people and their intentions/actions in a self protection situation.

What is the impact of the martial arts? - Quora

There is substantial evidence that training in Martial Arts is associated with improvements in cognitive function in children; but little has been studied in healthy adults. Here, we studied the impact of extensive training in Martial Arts on cognitive control in adults.
