The Media Law Dictionary - urialaws.secretext.org
The legislation through which governments regulate the mass media (see also deregulation; regulation). It includes issues of censorship, copyright, defamation, broadcast law, and antitrust law. In democracies, media law is seen as a balancing act between two conflicting principles: freedom of expression and constraints laid down in statutes of common law, as in issues of defamation and the national interest.

Commodities and Capabilities presents a set of inter-related theses concerning the foundations of welfare economics, and in particular about the assessment of personal well-being and advantage. The argument presented focuses on the capability to function, i.e. what a person can do or can be, questioning in the process the more standard emphasis on opulence or on utility.
